

EPOXY HARDENER D650

Description:

D650 is a low-viscosity polyamide epoxy curing agent that works well with solid epoxy resins at room temperature. It is recommended for use in coatings and adhesives.

Applications:

- Anti-corrosion coatings
- Flooring coatings
- Epoxy adhesive

Characteristics and Advantages:

- Excellent anti-corrosion properties
- Superior mechanical performance
- Good compatibility with solid epoxy, providing a long working time
- The addition of accelerators can increase curing speed
- Stable product with high cost-effectiveness

Specification:

Indicator	Value
Viscosity(cps/40°C)	10,000-30,000
Amine Value (mg KOH/g)	170-210
Color	≤ 12
Solid Content	100
AHEW (g/mol)	198
Ratio (PHP, EEW=190)	100:100

Package and storage:

- Sealed in 190 kg packaging.
- Store in a cool, dry place;
- avoid contact with strong oxidizing agents;
- keep away from fire and heat sources.
- Ensure the container is sealed. During transportation, protect from rain, sun exposure, and prevent damage to the packaging or moisture ingress.
