

EPOXY HARDENER D8340

Description:

D8340 is a low-viscosity, solvent-free modified amine epoxy curing agent. It is used at room temperature with liquid epoxy resin (EEW = 190) and is recommended for solvent-free or high solid content flooring coatings.

Applications:

- High-end solvent-based flooring coatings;
- Adhesives;
- Potting materials.

Characteristics and Advantage:

- Fast curing, good leveling, and high hardness;
- Offers some corrosion resistance;
- Excellent mechanical properties;
- Light color and stable quality;
- A suitable amount of accelerator can be added to increase curing speed.

Specification:

| Indicator | Value |
|------------------------|-----------------------|
| Viscosity(cps/25°C) | 80-180 |
| Amine Value (mg KOH/g) | 290-330 |
| Color | white to light yellow |
| Solid content (%) | 100 |
| AHEW(mg KOH/g) | 78 |
| Ratio (PHP, EEW=190) | 100:40 |

Package and storage:

- q
